

Container Full Load Skate Set

20 Tonne Rated - Twist Lock System - Assembly Kit

FEATURING

✓ High Load Capacity & Secure Fit

Designed for ISO containers, with a 20,000kg capacity and a low fitting height, ensuring a stable and secure load transfer.

✓ Twist-Lock Safety Mechanism

Utilises front and rear twist-locks to securely attach the skate system to the container, preventing movement during transport.

✓ Durable & Smooth-Running Wheels

Equipped with nylon wheels for a smooth and easy run on concrete floors, with polyurethane options available for added versatility.

✓ Efficient & Easy to Use

The double roller design provides high capacity and easier steering, making it a cost-effective solution when forklifts cannot be used.
