

Flammable Liquids Cabinets

Class 3 Flammable Liquid Safety Storage

FEATURING

- ✓ **Double-Walled Steel Construction:** Built with double-walled sheet steel, providing insulation against excessive heat and enhancing durability.
- ✓ **Liquid-Tight Spill Containment:** The base forms a liquid-tight sump, capturing accidental spills and facilitating easy cleanup.
- ✓ **Self-Closing Doors:** Equipped with self-closing doors that latch at multiple points, ensuring secure containment of flammable liquids.
- ✓ **Perforated Adjustable Shelving:** Shelves are perforated to allow free air movement and can be adjusted to accommodate various container sizes.
- ✓ **Flame-Arrestor Vents and Earthing Points:** Includes built-in vents with flame arrestors and earthing points to safely dissipate static charges, reducing the risk of ignition.
- ✓ **Compliance with AS1940-2017 Standards:** Fully compliant with Australian Standard AS1940-2017 for the safe storage and handling of Class 3 flammable liquids, defined as liquids with a flashpoint not exceeding 60.5°C (closed cup test) or 65.6°C (open cup test).
