MONSTAR LADDER

Team Systems has grown to become Australia's leading manufacturer and importer of Material Handling Equipment.

Team Systems has been at the forefront of continued product development and sourcing of new products from right across the globe.

Our Brands include: Teamstar Trolleys, Teamstep, Rollmasta Conveyor, equip Powered Trolleys, Monstar Ladders, Crane Fork Attachments and Drumtech Drum Handling Equipment, just to name a few.

Team Systems also has a long standing relationship with some of Australia's largest manufacturers like Viscount & Nally Plastics, and Bailey Ladders.

- **National distribution from five branches across Australia.**
- **2000 product lines in stock.**
- **Warehousing & Consolidating orders in China.**
- **Direct manufacturing of products in China for specific customer requirements.**

Team Systems' Values

The values embraced by the people at Team Systems stem from a tradition which has been maintained from the very outset. These values are the key to maintaining successful and transparent relationships which have nurtured long term and mutually prosperous associations.

At Team Systems we expect our people to behave consistently with the following values:

- **Integrity:** Honest, ethical dealings within the letter and spirit of the law
- **Teamwork:** Working towards a common goal in a collaborative, inclusive manner
- **Individual Accountability:** Accepting responsibility, a sense of urgency, an eye for detail and a "can do" attitude
- **Mutual Support and Respect:** Being available, respect for others' opinions, time, feelings and by use of appropriate language
- **Trust and Openness:** Facilitating frequent, transparent two-way communications
- **Courage:** To risk going beyond our comfort zone and to learn from our mistakes
- **Fairness:** Accepting of a difference of opinion and achieving balance and equity in outcomes
- **Uncompromising Standards:** Care for health, safety and the environment as well as living and promoting our values in a culture of continuous improvement and learning.

"Our Goal is to provide Material Handling Equipment and solutions which will allow our customers to operate at the highest level in the Manufacturing, Retail, Storage and Distribution of their product."

- Shane Poulton Managing Director

CUSTOM MATERIAL HANDLING DESIGN & MANUFACTURE

CELEBRATING **32** YEARS
IN AUSTRALIA

Team Systems can custom design and manufacture to suit your requirements.

Team Systems pride ourselves on our ability to Understand, Design, Engineer and Manufacture solutions for your Material Handling applications.

Team Systems has been manufacturing trolleys and Materials Handling equipment for over thirty years. In fact we started our life as a manufacturer of Trolleys, Stillages and Shop Fittings back in the early 90's.

You may not know but some of the many Trolleys we have manufactured are involved in the moving products that pass through your hands every day.

Take for instance, Australia Post Bar Code Sorter Racks. Team Systems in conjunction with Australia Post designed and manufactured the Trolleys that all the standard post goes through.

We designed the first round mobile one piece plastic step with retracting castors in 1998. Known as the "Teamstep". We have since added many SKUs to this range.

We designed the first fold away Fork Lift Work Platform in Australia and a great range of Trolleys and Industrial Ladders.

Not only have we been involved in developing our own products but we have been heavily involved in Designing and Manufacturing products for our customers since our inception.

Call us to arrange a site visit from one of our experienced representatives who will design and engineer a solution for your application.

- SERVICE STATION DISPLAYS
- LAUNDRY & NURSERY TROLLEYS
- SPECIALISED STOCK PICKERS

- CATERING TROLLEYS

TEAM SYSTEMS HISTORICAL TIMELINE

DANDENONG - VIC

CLAREDALE ROAD DANDENONG

Our first location was a small factory at 34 Claredale Road, Dandenong, Victoria.

Team Systems started as a steel fabricator/manufacturer of trolleys and stillages to the manufacturing, food and nursery industry.

DANDENONG - VIC

CHELTHENHAM ROAD DANDENONG

With a business SKU aimed at Corporate Australia Team Systems receives work from large companies including Coca Cola, United Energy, Spotlight Stores and RACV, just to name a few.

FIRST SHOWROOM

TEAMSTEP DEVELOPMENT

1995

1998

1994

Team Systems was formed in 1994 by Shane and Mevice Poulton (Current Owners).

AMBERLEY CRESCENT DANDENONG

In 1995, Team Systems moved to 35 Amberley Crescent, Dandenong, Victoria.

Shortly after Team Systems found the need to create its own brand of Trolleys 'Teamstar Trolleys.' This helped develop a sustainable business with better cash flow and better margins.

1997

MILLS ROAD MANUFACTURING

In 1997, Team Systems relocated to a far bigger premises with a Showroom fronting Cheltenham Road in Dandenong and a Manufacturing facility directly behind it in Mills Road, Dandenong, Victoria.

In 1998, Team Systems develops the Teamstep Mobile Step Stool. This is the first in our range of Moulded Steps and Roto Moulded Products.

ROBOTIC WELDING INTRODUCED

Robotic Welding introduced into the manufacturing process. Major tender won from Australia Post to manufacture Bar Code Sorter Racks.

ACQUISITION NUPLAS PLASTICS

In 2002, Team Systems purchases Nuplas Plastics (Logo) and commences importing products from China mainland and Taiwan Area.

2002

DANDENONG SOUTH - VIC

DANDENONG SOUTH SHOWROOM/WAREHOUSE

In October 2004, Team Systems' existing premises is compulsorily acquired by Vic Roads. Team Systems purchases and relocates to its own brand new premises.

2004

CAMPBELLFIELD - VIC

CAMPBELLFIELD WAREHOUSE

In 2006, Team Systems opens its first branch located in Campbellfield, Victoria.

2006

2000

MAJOR TENDER WON

In 2000, Team Systems moves to Robotic Welding and also wins a major tender to manufacture Bar Code Sorter Racks for Australia Post.

Branding Expansion

TEAMSTEP

DIRECT IMPORTING FROM CHINA & TAIWAN AREA COMMENCES

Opportunity arises to begin directly importing specialised products from China mainland & Taiwan Area.

Product Range and Area Distribution expands with the opening of the first Campbellfield Warehouse.

TEAM SYSTEMS HISTORICAL TIMELINE

CANNING VALE - WA

CANNING VALE SHOWROOM/WAREHOUSE

In 2009, Shane Poulton purchases Ideal Wire in Perth from our long standing distributor Eric Smith. We change the name to Ideal Systems (W.A.) Pty Ltd and relocates to a company owned premises at 211 Bannister Road, Canning Vale, Western Australia.

CAMPBELLFIELD - VIC

CAMPBELLFIELD SHOWROOM/WAREHOUSE

In 2010, Team Systems moves the Campbellfield Branch to larger premises at 1497 Hume Highway, Campbellfield, Victoria.

YATALA - QUEENSLAND

BRISBANE SHOWROOM/WAREHOUSE

In 2011, Team Systems opens the Brisbane branch from a 3PL Warehouse and in 2012 purchases a new building to operate and grow the Queensland market.

BRISBANE BRANCH OPERATES FROM 3PL WAREHOUSE DISTRIBUTION

Capacity	1000kg
Table Height Range	360 - 1400mm
Table Dimensions (L x W x H)	2050 x 750 x 55mm
Handle Height from ground	1000mm

MATEX

TF200

Manual Rough Terrain Scissor Lift Table

- › Hydraulic foot pump
- › Self-levelling, rough-terrain lift table
- › Easy to move, brake-equipped design

SKU	TF200
Capacity	200kg
Table Height Range	345 - 1010mm
Table Dimensions (L x W x H)	1000 x 500 x 35mm
Handle Height from ground	1050mm

MATEX

TF50S

Scissor Lift Table

- › Stainless steel construction table.
- › Galvanised scissors & pump.

SKU	TFD50S
Capacity	450kg
Minimum Height	290mm
Maximum Height	890mm
Platform Size (L x W)	815 x 500mm

MATEX

TFD35

Double Scissor Lift Table

- › High lift 1300mm
- › 350kg rated capacity

SKU	TFD35
Capacity	350kg
Table Height Range	355 - 1300mm
Table Dimensions (L x W x H)	910 x 500 x 53mm
Handle Height from ground	975mm

MATEX

TFD70

Double Scissor Lift Table

- › Large deck size
- › 700kg rated capacity.

SKU	TFD70
Capacity	700kg
Table Height Range	455 - 1500mm
Table Dimensions (L x W x H)	1220 x 610 x 53mm
Handle Height from ground	1015mm

MATEX

TFD15S

Double Scissor Lift Table

- › Stainless steel construction table.
- › Galvanised scissors & pump.

SKU	TFD15S
Capacity	100kg
Minimum Height	250mm
Maximum Height	1220mm
Platform Size (L x W)	700 x 445mm

MATEX

TFD35S

Double Scissor Lift Table

- › Stainless steel construction table.
- › Galvanised scissors & pump.

SKU	TFD35S
Capacity	350kg
Minimum Height	355mm
Maximum Height	1295mm
Platform Size (L x W)	910 x 500mm

MATEX

ETF50

Electric Scissor Lift

- › 500kg capacity, lifts over 1m
- › Electric lift with smooth control
- › Large platform, easy to move

SKU	ETF50
Capacity	500kg
Table Height Range	440 - 1025mm
Table Dimensions (L x W x H)	1010 x 520 x 50mm
Handle Height from ground	970mm

MATEX

ETFD35

Electric Double Scissor Lift

- › Electric double scissor system
- › Steel frame and sealed battery
- › Lockable rear wheels and manual push

SKU	ETFD35
Capacity	350kg
Table Height Range	370 - 1300mm
Table Dimensions (L x W x H)	910 x 500 x 53mm
Handle Height from ground	920mm

MATEX

HTFG

Electric Lift Table

- › Spacious deck and included ramp for easy loading
- › Remote-controlled electric system with emergency stop

SKU	HTFG
Capacity	1000kg
Lowered Height	82mm
Raised Height	760mm
Platform Size (L x W)	1450 x 1140mm
Lift Speed	8 Seconds
Motor	0.75Kw - 3 Phase

MATEX

HIW4

Electric Lift Table

- › Heavy-duty steel build supports
- › Compact structure ensures stable lifting and lowering
- › European electronic control system for reliable operation
- › Ideal for warehouses, factories, and workshops

SKU	HIW4
Capacity	2000kg
Lowered Height	190mm
Raised Height	1010mm
Platform Size (L x W)	1300 x 800mm
Lift Speed	40 Seconds
Motor	0.75Kw - 3 Phase

MATEX

QPSE12N-35

Electric Stacker with Smart Lithium Battery

- › Ideal for light-duty use
- › Compact design with easy mobility
- › Fast 2.5-hour charging
- › Adjustable base legs
- › Ergonomic tiller with vertical drive, horn, and emergency stop

SKU	QPSE12N-35
Mast Lift Height	3500mm
Capacity	1200kg
Fork Size (L x W x H)	1125 x 160 x 55mm
Battery	24V/50Ah LFP Lithium Battery
Charger	24V/25A Charger

NOBLELIFT

PSE12N-32 / PSE12N-36

Electric Stacker with Smart Lithium Battery

- › Ideal for light-duty use
- › Compact design with easy mobility
- › Fast 2.5-hour charging
- › Maintenance-friendly construction
- › Durable smart chassis design

SKU	PSE12N-32	PSE12N-36
Mast Lift Height	3200mm	3600mm
Capacity	1200kg	
Fork Size (L x W x H)	1150 x 100 x 40mm	
Battery	24V/60Ah LFP Lithium Battery	
Charger	24V/25A Charger	

NOBLELIFT

Special Order

PS13RM-45

Mast Reach Counterbalanced Lithium Power Stacker

- › High-efficiency German-made drive motor
- › Forward/backward mast movement for safety and stability
- › Integrated ride-on platform for easy and safe operation
- › Emergency power disconnect for added safety

SKU	PS13RM-45
Mast Lift Height	4500mm
Capacity	1300kg
Fork Size (L x W x H)	950(1070) x 100 x 35mm
Battery	24V/200Ah Lithium Battery
Charger	24V/80Ah Charger

NOBLELIFT

Special Order

PS16TSL-40 / PS16TSL-46

Heavy Duty Electric Stacker with Smart Lithium Battery

- › Safe, compact and ergonomic long tiller design allows for efficient and safe operation
- › Adjustable base legs and load backrest installed
- › Plexiglass Operator protection and emergency power disconnect

NOTE: PS16TSL-40 is equipped with side shift.

SKU	PS16TSL-40	PS16TSL-46
Mast Lift Height	4000mm	4600mm
Capacity	1600kg	
Fork Size (L x W x H)	1150 x 120 x 40mm	
Battery	24V/270Ah Lithium Battery	
Charger	On-board Charger	

NOBLELIFT

Special Order

PS16CB-45

Electric Counterbalanced Lithium Power Stacker

- › High-efficiency German-made drive motor
- › Forward/backward mast movement for safety and stability
- › Integrated ride-on platform for easy and safe operation
- › Emergency power disconnect for added safety

SKU	PS16CB-45
Mast Lift Height	4500mm
Capacity	1600kg
Fork Size (L x W x H)	950 x 100 x 35mm
Battery	24V/200Ah Lithium Battery
Charger	24V/80Ah Charger

NOBLELIFT

Special Order

SPN1035A

Semi Electric Stacker Lifter

- › Manual propulsion with lift/lower lever on dashboard
- › Straddle legs with 3-position adjustment
- › Foot-operated parking brake
- › Adjustable base legs with smooth PU rollers for versatile lifting tasks

SKU	SN1035A
Mast Lift Height	3500mm
Capacity	1000kg
Fork Length	1067mm
Battery	Built-in 10 AMP
Charger	Plug-in Battery Charger

MATEX

EPS0415

Electric Platform Stacker

- › Electric lift with manual push operation
- › Combines lifting, stacking, and transporting in one compact design

SKU	EPS0415
Capacity	400kg
Fork Height Range	85 - 1500mm
Platform Size (L x W)	650 x 576mm
Battery/Motor	DC12V 60AH/700W

MATEX

3W219

Standard Steel Lifter

- › Fold-away hydraulic foot pump with hand-turn lowering valve
- › Tilts back like a hand truck for easy transport
- › Durable steel frame construction

SKU	3W219
Capacity	340kg
Lift Range	10 - 1350mm
Platform Size	560 x 560mm
Overall Size L x W x H	880 x 570 x 1545mm

MATEX

SFHD10

Vertical Manual Hand Walkie Stacker

- › Ideal for lifting and transporting products
- › Compatible with Euro-type pallets

SKU	SFHD10
Capacity	1000kg
Fork Height Range	85 - 2500mm
Min. Mast Height	1830mm
Fork Size	150 x 60mm
Fork Overall Width	300 - 740/550mm
Fork Length	1150mm

MATEX

SFH15

Vertical Manual Hand Walkie Stacker

- › Ideal for lifting and transporting products
- › Compatible with Euro-type pallets

SKU	SFH15
Capacity	1500kg
Fork Height Range	85 - 1600mm
Min. Mast Height	1980mm
Fork Size	150 x 60mm
Fork Overall Width	300 - 740/550mm
Fork Length	1150mm

MATEX

SFH10W

Wide Legs Vertical Manual Hand Walkie Stacker

- › Ideal for lifting and transporting products
- › Straddle design allows easy access around pallets
- › Compatible with Euro-type pallets

SKU	SFH10W
Capacity	1000kg
Fork Height Range	85 - 1600mm
Fork Size	150 x 60mm
Fork Overall Width	300 - 1360mm
Fork Length	1150mm
Mast Height Min.	1980mm

MATEX

FP0415F

Manual Platform Stacker with Forks and Removable Plate

- › Foot pedal operation for effortless lifting
- › Equipped with overload protection valve
- › Hard chrome-plated frame for durability
- › Two frame rollers and two steering rollers for stable, safe operation

SKU	FP0415F
Capacity	400kg
Lift Range	200 - 1500mm
Platform Size	590 x 650mm
Overall Size L x W x H	1015 x 590 x 1630mm

MATEX

MES150

Lifter Transporter

- › Suitable for laboratories, offices, and light industrial use

SKU	MES150
Capacity	150kg
Lifting Height	1535mm
Fork Overall Width	520mm
Fork Length	460mm

MATEX

MEE100

Power Lifter Transporter

- › Easy to manoeuvre in tight spaces
- › Perfect for laboratories and clinical environments
- › Built-in overload protection for safe operation

SKU	MEE100
Capacity	100kg
Fork Height Range	1700mm
Fork Overall Width	600mm
Fork Length	470mm

ML2

Folding Handle Platform Mast Lifter

- › Folds and unfolds in 30 seconds for quick transport
- › Patented silent winch locks load at any height
- › Internal steel cable prevents pinch points for added safety

SKU	ML2
Capacity	120kg Platform
Max. Lift Height	1026mm
Platform Size (L x W)	360 x 420mm

ML2-F

Folding Handle Fork Mast Lifter

- › Folds and unfolds in 30 seconds for quick transport
- › Patented silent winch locks load at any height
- › Internal steel cable prevents pinch points for added safety

SKU	ML2-F
Capacity	150kg Fork
Max. Lift Height	1057mm
Adjustable Fork Size (L x W)	370 x (320 - 590)mm

MATEX

DEP90

Mini Aluminium Stacker

- › Converts from lifter to platform trolley
- › Compact design for easy loading into a car boot

SKU	DEP90
Capacity	90kg
Fork Height Range	25 - 1500mm
Platform Size	355 x 420mm
Net Weight	30kg

MATEX

WFH181

Manual Hand Stacker Platform Lifter

- › Lightweight stacker ideal for tradespeople
- › Folds compactly for easy transport in a UTE or wagon

SKU	WFH181
Capacity	181kg
Fork Height Range	90 - 2400mm
Fork Overall Width	630mm
Fork Length	570mm

MATEX

MER35 / MER50

Aerial Work Platform Trolley Duct Lifter

- › Fits easily through standard single doors in upright position
- › Folding stabilisers and compact design for convenient storage
- › No-tool, quick setup for fast deployment
- › Aluminium telescopic mast system for strength and durability

SKU	MER35	MER50
Capacity	350kg	300kg
Max. Working Height	3500mm	5000mm
Overall Length	1500mm	1880mm

MATEX

NFM180

Hydraulic Furniture Movers

- › Industrial-grade quality built for demanding applications
- › Trusted across multiple industries for professional use
- › Ideal for transporting safes, washing machines, switchboards & cabinets
- › Designed for safe and efficient handling of heavy items

SKU	NFM180
Capacity	1800kg
Lift Height	250mm
Wheels	145mm

MATEX

MT001

Low Profile Pallet Turntable Disc Rotator

- › Designed to rotate heavy pallets with ease, the 23mm low-profile turntable allows smooth pallet access using a hand pallet truck
- › Supports loads up to 1800kg with a reliable 360° rotation mechanism that reduces manual handling, boosts productivity and minimises operator strain
- › Optional foot-operated locking system ensures pallet stability during loading and turning
- › Perfect for warehouses, factories and distribution centres needing frequent pallet rotation

SKU	MT001
Capacity	1800kg
Top Inside Dia.	1282mm
Top Outside Dia.	1524mm
Height	23mm
Weight	124kg
Warranty	1 year

MATEX

ERP2000

Electric Pallet Turntable

- › 2000kg electric turntable allows smooth, hands-free 360° pallet rotation for loading, wrapping or positioning
- › Foot pedal offers precise control; fork pockets enable easy forklift relocation
- › Compact and heavy-duty design suits high-volume industrial use

Features	ERP2000
Capacity	2000kg
Platform Size	1220(D) x 286(H)mm
Operation	240V/50Hz Single Phase
Speed	12r/min
Motor	2.2kW
Fork Pocket Size	178 x 54mm
Net Weight	220kg

MATEX

PLG1

Pallet Leveller and Positioner

- › Maintains the active load layer at or above waist height, minimising bending and lifting while reducing LTIs caused by strain and repetitive movement
- › Scissor-action mechanism with adjustable spring combinations supports loads up to 2T
- › Low-friction bearing-supported turntable enables smooth and easy load rotation
- › Free-standing design requires no ground fixing for flexible placement and operation

SKU	PLG1
Capacity	200 - 2000kg
Rotating Platform Diameters	1110mm
Compressed Height	270mm
Extended Height	710mm
Base Size	1150 x 934mm
Pocket Size	170 x 50mm

MATEX

PLG1G

Galvanised Spring Actuated Pallet Leveller

- › Galvanised finish for superior corrosion resistance
- › Suitable for food industry, dairy, and environments with corrosive acids or saline solutions
- › Maintains load at waist height to reduce bending, lifting, and LTIs caused by strain and repetitive movement
- › Scissor-action design with adjustable springs supports loads up to 2T

SKU	PLG1G
Capacity	200 - 2000kg
Rotating Platform Diameters	1110mm
Compressed Height	240mm
Extended Height	705mm
Base Size	920 x 930mm

MATEX

PLG1C

Closed Top Pallet Leveller

- › Maintains active load layer at waist height to minimise bending and lifting, reducing LTIs from strain and repetitive movement
- › Scissor-action leveller with adjustable spring combinations for handling loads up to 2T
- › Low-friction bearing turntable allows smooth load rotation
- › No ground fixing required for installation

Features	PLG1C
Capacity	200 - 2000kg
Rotating Platform Diameters	1110mm
Compressed Height	240mm
Extended Height	705mm
Base Size	920 x 930mm

Conveyor Roller - PVC & STEEL - Q Shaft 10 x 8

- › Ideal for low-cost, efficient handling without powered equipment
- › Quick to set up, dismantle, or relocate
- › Spring-loaded shafts enable easy install and low maintenance
- › Ensure at least three rollers support items during use

Conveyor Roller - PVC

- › Durable PVC material offers lightweight strength and corrosion resistance

SKU	Roller Width	Roller Diameter	Capacity
TSPROLL300	230mm	50mm	40kg/ea
TSPROLL450	380mm	50mm	30kg/ea
TSPROLL600	530mm	50mm	20kg/ea

Conveyor Roller - Steel

- › Robust design steel material for high strength and load-bearing capacity

SKU	Roller Width	Roller Diameter	Capacity
TSSROLL300	230mm	50mm	120kg/ea
TSSROLL450	380mm	50mm	120kg/ea
TSSROLL600	530mm	50mm	120kg/ea

Conveyor Frame - Blue Mild Steel

- › Strong mild steel frame with a durable royal blue powder-coated finish
- › Interlocking sections make for greater flexibility for additions and subtractions of further lengths

SKU	Dimensions (W x L)	Pitch
TSFRAME300	300 x 3000mm	75mm (min)
TSFRAME450	450 x 3000mm	75mm (min)
TSFRAME600	600 x 3000mm	75mm (min)

Adjustable Stands - Blue Mild Steel

- › Rigid support stands for use with gravity conveyors
- › Adjustable height for flexible setup and alignment
- › Recommended to be securely fixed for safe operation

SKU	Width	Min. Height	Max. Height
TSFTC300	300mm	720mm	1100mm
TSFTC450	450mm	720mm	1100mm
TSFTC600	600mm	720mm	1100mm

Conveyor System Completed

- › Rollmasta Gravity Conveyors offer DIY flexibility to suit your specific handling needs
- › Available pre-packed for easy transport or fully assembled to minimise downtime
- › Optional accessories like castors, hook bars, and more help optimise product flow in production or despatch areas

THE TEAM SYSTEMS 'DIY CONVEYOR SYSTEM'

Team Systems full range of Imported Gravity Conveyors provides the simple solution for moving all types of products in industries such as transport, distribution centres, container unloading & similar.

Roller Conveyors are one of the most common types of conveyors applied in conveying flat bottom type products such as cases, boxes, pallets & trays. These kind of conveyors improve efficiency distribution & line links between different stages of production of your product.

STEP 1

STEP 2

STEP 3

STEP 1:

- › Choose type of conveyor rollers
- › Choose conveyor roller width
- › Choose number of conveyor rollers as needed

STEP 2:

- › Choose matching conveyor frame width.
- › Choose conveyor frame length as needed

STEP 3:

- Choose matching conveyor stands to suit conveyor frame.

ASSEMBLED CONVEYOR

- 40 Rollers @75mm Pitch.

PVC ROLLERS

STEEL ROLLERS

EXPANDABLE CONVEYOR - SKATE & ROLLER

- › A unique flexible conveyor that expands, contracts, twists, and turns
- › Quick setup with adjustable-height legs and lockable castors
- › Skate wheels or rollers designed for reliable self-tracking
- › Expandable gravity conveyors offer a cost-effective solution
- › Perfect for packaging, transport, and manufacturing lines
- › Proven performer for efficient loading and unloading tasks

Heavy Duty Skate Wheel

SKU	EC450S	EC600S
Length - Extended	3900mm	3900mm
Length - Retracted	1000mm	1000mm
Width	450mm	600mm

Castors	125mm	125mm
Height Range	690-1000mm	690-1000mm

CFR-A3337

Carton Flow Rail

- › Wide range of gravity-driven flow systems to suit different warehouse sizes and budgets
- › Ideal for picking operations with various carton sizes
- › First-In/First-Out stock presentation ensures proper inventory rotation
- › Separate loading and retrieval aisles improve picker efficiency
- › Compatible with conveyors and other storage solutions for streamlined pick modules and productivity

SKU	Load Capacity	Length
CFR-A3337	70kg/per metre	3m

Carton Flow Rail

Carton Flow Rail - CFRA3337

DH205

Drum Handle

- › Durable construction ensures reliable lifting and control
- › Reduces user strain during repetitive drum handling
- › Reduces strain and risk of spills
- › Fits standard drum sizes for versatile use

Features	DH205
Material	Painted Steel

TSD44

Drum Dolly

- › Strong, durable build with smooth rolling performance
- › Fitted with heavy-duty castors for easy mobility

SKU	TSD44
Capacity	300kg
Suit Drum	205L / 44 Gallon
Deck Height	100mm
Deck Diameter Size	614mm
Wheel Type	4 x 75mm White Nylon Swivel
Suits Steel Drums	Max. 200Litres

CCK21

Industrial Drum Lifter

- › Three-point arms minimise drum deformation
- › Auto-engages drum rim for secure handling
- › Suits open and closed head drums
- › Lightweight yet robust for easy transport and storage
- › Ideal for warehouses and industrial drum handling tasks

Features	CCK21
Capacity	500kg
Suit Drum	125/210 Litres Plastic and Steel
Overall Size	711 x 711 x 215mm

CAC45

Hydraulic Raptor Drum Loader Trolley

- › Heavy-duty build with 90° legs for deep pallet access
- › Precision hydraulic pump
- › Secure clamp and wheels for easy movement
- › Ideal for efficient drum handling in warehouses

SKU	CAC45
Capacity	450kg
Suit Drum	210 Litres Steel
Lift Height	500mm
Lift Per Stroke	11.6mm

CAG36

Hydraulic Drum Loader Trolley

- › Heavy-duty frame for stable drum handling and oil can transport
- › 3-position hydraulic lift control
- › Secure hoop reduces spills and tipping
- › Minimises strain and boosts efficiency

SKU	CAG36
Capacity	365kg / 800lbs
Suit Drum	205L / 44 Gallon Drums
Lift Height Range	270 - 390mm
Radius of Arm	290mm
Overall Size L x W	1022 x 722mm

NBF35

Drum Barrel Tilter Tipper Trolley

- › Handles steel drums without the need for adjustment or attachment changes
- › Screw-operated rim clamp for simple lifting and transport
- › Hydraulic foot pump raises the drum easily
- › Allows 180° rotation for controlled pouring or positioning

SKU	NBF35
Capacity	350kg
Suit Drum	Max. 200 Litres Steel
Lift Height	1425mm
Dimensions	1190 x 890 x 2020mm
Rotation	180°

ZG350

Drum Puller Lifter Clamp

- › Designed for lifting 210L horizontal drums up to 350kg
- › Heavy-duty build ensures durability in industrial use
- › Ergonomic and easy to operate with secure locking clamp
- › Prevents slips during transport for enhanced safety
- › Ideal for warehouses, factories, and drum handling tasks
- › Lightweight and compact for easy storage and mobility

SKU	Capacity	Suit Drum	Weight
ZG350	350kg	210 Litres	6kg

SUITS BOTH PLASTIC & STEEL DRUMS

CBD454HD

Drum Truck Trolley - Drum Mover

- › Single-person drum trolley/lifter with 200mm rubber wheels
- › Safety beak securely grips drum lip for safe handling
- › Handles both steel and plastic drums with ease
- › Built for tough industrial applications and heavy use

SKU	Capacity	Suit Drum	Weight
CBD454HD	450kg	210 Litres	23kg

NF10

Tilting Drum Stand

- › 170kg capacity for efficient drum handling
- › Self-loading design allows one-person operation without direct contact
- › Nylon castor wheels ensure smooth movement and easy positioning
- › Retractable handles and non-slip plastic grips for safe, easy transport

SKU	Capacity	Suit Drum	Weight
NF10	170kg	210 Litres	6kg

EAST WEST ENGINEERING

DTB1

Drum Trolley

- › Ideal for safely transporting drums
- › Drum can be stored in horizontal or vertical position
- › Spill capacity exceeds Australian Standard for portable units
- › Fitted drain plug allows emptying of containment area
- › Heavy duty castors and towing handle for effortless movement

SKU	DTB1
Working Load Limit (WLL)	1000kg
Suit Drum	205 Litre
No. of Drums	1
Spill Capacity	230 Litre
Dimensions	1245 x 730 x 510mm
Height incl. Handle	1250mm
Unit Weight	50kg

EAST WEST ENGINEERING

DLM50

Drum Lifter

- › Automatically clamps a 205L drum without leaving seat
- › Load-tightening arms lock under drum's rolling hoop when raised
- › Heavier loads increase clamping force for secure handling
- › Release by lowering drum and reversing the forklift
- › Durable zinc finish for corrosion resistance

SKU	DLM50
Working Load Limit (WLL)	500kg
Suit Drum	205 Litre Steel
Load Centre	1340mm
Fork Pocket Size	185 x 65mm
Fork Pocket Centres	300mm
Unit Weight	65kg

EAST WEST ENGINEERING

BGN-1

Single Drum Lifter

- › Unique beak design delivers high clamping force for secure drum grip
- › Handles one 205L steel (and select plastic) drums without adjustment
- › Forklift operator can safely place drum without leaving seat
- › Low-profile drum rest protects drums and their labels from damage
- › Few moving parts minimises maintenance
- › Durable zinc finish for corrosion resistance

SKU	BGN-1
Working Load Limit (WLL)	1000kg
Suit Drum	205 Litre Steel / Plastic
Load Centre	1210mm
Fork Pocket Size	185 x 60mm
Fork Pocket Centres	250mm
Unit Weight	72kg

EAST WEST ENGINEERING

BGN-2

Double Drum Lifter

- › Unique beak design delivers high clamping force for secure drum grip
- › Handles one or two 205L steel (and select plastic) drums side by side
- › Safe, precise placement from the forklift seat with excellent visibility
- › Low-profile drum rest protects drums and their labels from damage
- › Few moving parts minimises maintenance
- › Durable zinc finish for corrosion resistance

SKU	BGN-2
Working Load Limit (WLL)	1500kg
Suit Drum	205 Litre Steel / Plastic
Load Centre	1250mm
Fork Pocket Size	185 x 60mm
Fork Pocket Centres	600mm
Unit Weight	95kg

**EAST WEST
ENGINEERING**

DST01

Single Drum Rack

- › Securely stores a single drum with full spill containment
- › Fitted drain plug for quick emptying of the containment tray
- › Spill capacity exceeds Australian standards for portable units
- › Drum rack and spill bin supplied flat-packed for on-site assembly
- › Simple bolt-together design for quick installation
- › Durable zinc-plated finish for corrosion resistance

SKU	DST01
Working Load Limit (WLL)	300kg
Suit Drum	205 Litre
No. of Drums	1
Spill Capacity	250 Litre
Dimensions	1210 x 610 x 750mm
Height incl. Handle	1285mm
Unit Weight	80kg

**EAST WEST
ENGINEERING**

DST02

Double Drum Rack

- › Securely stores one or two drums with full spill containment
- › Fitted drain plug for quick emptying of the containment tray
- › Spill capacity exceeds Australian standards for portable units
- › Drum rack and spill bin supplied flat-packed for on-site assembly
- › Simple bolt-together design for quick installation
- › Durable zinc-plated finish for corrosion resistance

SKU	DST02
Working Load Limit (WLL)	600kg
Suit Drum	205 Litre
No. of Drums	2
Spill Capacity	245 Litre
Dimensions	1210 x 1210 x 570mm
Height incl. Handle	1115mm
Unit Weight	95kg

**EAST WEST
ENGINEERING**

DSF01

Single Drum Rack

- › Securely stores a single drum
- › Stackable: 3 high empty, 2 high when loaded
- › Pair with SL2 Spill Bin for full spill protection
- › Zinc-plated finish for corrosion resistance

SKU	DSF01
Working Load Limit (WLL)	300kg per Unit
Suit Drum	205 Litre
No. of Drums	1
Dimensions	825 x 765 x 895mm
Height incl. 205L Drum	1195mm
Unit Weight	35kg

Double Drum Rack

- › Securely stores one or two drums
- › Stackable: 3 high empty, 2 high when loaded
- › Pair with SLR4 Spill Bin for full spill protection
- › Zinc-plated finish for corrosion resistance

SKU	DSF02
Working Load Limit (WLL)	600kg per Unit
Suit Drum	205 Litre
No. of Drums	2
Dimensions	1425 x 765 x 895mm
Height incl. 205L Drum	1205mm
Fork Stirrup Size	160 x 65mm
Fork Stirrup Centres	664mm
Unit Weight	45kg

EAST WEST ENGINEERING

DER40H

Drum Rotator

- › Empties a drum with minimal effort
- › Hand wheel operation suits drum rotation at chest height
- › Large worm-drive gearbox locks drum in position when handle stops
- › Belly strap & eccentric lock secures drum in position
- › Slip-on forklift attachment for quick hookup
- › Durable zinc-plated finish for corrosion resistance

SKU	DER40H
Working Load Limit (WLL)	400kg
Suit Drum	205 Litre Steel
Load Centre	940mm
Rotation	360°
Fork Pocket Size	185 x 60mm
Fork Pocket Centres	840mm
Unit Weight	92kg

EAST WEST ENGINEERING

DRU50

Drum Dumper

- › Ideal for dumping waste and scrap materials
- › Belly strap & eccentric lock secures drum in position
- › Driver-activated pull cord allows safe, remote tipping
- › Allows 180° drum rotation for efficient emptying
- › Slip-on forklift attachment for quick and easy connection
- › Durable enamel paint finish for long-lasting protection

SKU	DRU50
Working Load Limit (WLL)	500kg
Suit Drum	205 Litre Steel
Load Centre	950mm
Rotation	180°
Fork Pocket Size	185 x 60mm
Fork Pocket Centres	840mm
Unit Weight	85kg

Slip-on Roll Prong

- › Slip-on roll prong for efficient handling of fabric, cable and coil products
- › Suits high-capacity forklifts due to extended load centre
- › Quick and easy to mount on standard forklift tines
- › Fitted with safety chain to prevent accidental disengagement
- › Constructed from high-tensile steel for heavy-duty use
- › Durable enamel paint finish for lasting protection

NOTE:

- Custom prong lengths available on request.
- The prong length should be approximately 75% of the roll length. The Working Load Limit (WLL) has been calculated at the centre of the prong. If the product being lifted exceeds the length of the prong, please contact us for more details.

EAST WEST ENGINEERING

Fork Extension Slippers

- › Slimline fork extensions for added reach and load versatility
- › Designed and manufactured in accordance with AS 2359.15
- › Supplied with toggle locking pins for secure attachment
- › Includes load rating plate for safety compliance
- › Available in capacities up to 16 tonnes
- › Durable zinc-plated finish for corrosion resistance

NOTE:

- Fork tines must be measured to ensure correct fit.
- The FE1 range suits a maximum 100x45mm fork size.
- For fork sizes above this (even if you have a 2.5T forklift), you must order the next size up.
- Example: a 2.5T forklift fitted with 125x45mm fork size suits the FE2 range.
- Slippers used for general usage should be no longer than 167% of the supporting tine length.
- If the slippers are longer than 167%, then the usage of those slippers shall be restricted to their specified application.

ASD20

Steel Cargo Bar

- › Heavy-duty 38mm square steel tubing
- › Two-piece adjustable design for variable load widths
- › High-visibility orange finish makes the bar easy to spot in dim or crowded areas
- › Mechanical ratchet operation prevents slippage and vibration
- › Articulating rubber foot pads grip securely and protect surfaces
- › Ideal for securing cargo in utes, vans, trucks, and trailers

SKU	Size	Range	Construction	Material
ASD20	38mm	2200 - 2920mm	Square Tube	Steel

USG12

Safety Swing Gate

- › Provides controlled access to hazardous areas such as machinery zones and vehicle crossings
- › Includes "Authorised Personnel Only" sign for added site safety
- › Compatible with ball fence systems and optional mounting post
- › Durable zinc-plated finish with quick clamp plate installation
- › Self-closing design with stainless steel spring hinges and built-in gate stop
- › Adjustable to suit 830–1280mm wide openings, fits left or right inward openings

SKU	Minimum Opening	Maximum Opening	Dimensions (excl. Clamp Plate)	Finish	Unit Weight
USG12	830mm	1280mm	840 x 40 x 440mm	Zinc	8kg

UMZ18

Mezzanine Safety Gate

- › Provides safe, controlled pallet transfer between mezzanine levels and ground floor
- › Tilting gate design protects workers and prevents falls during loading and access
- › Suits a single pallet up to 1.7m high
- › Smooth tilt assisted by protected gas struts
- › Bumper rails guide pallet placement; lock-off and safety chain included
- › Robust design built to Australian Standards and OHS guidelines
- › Supplied flat pack in safety yellow enamel finish for high visibility

MONSTAR PRO

All-New Upgraded Premium Model

NEW

Industrial Giant Fan for High-Volume Airflow in Busy Environments

The MONSTAR PRO industrial fan is built for powerful air circulation and easy mobility across large spaces. Ideal for factories, warehouses, gymnasiums, shopping centres, animal enclosures, and construction zones.

- > Large diameter provides an expansive airflow, ensuring effective circulation in large areas like warehouses, factories, and workshops.
- > 240V 50-60Hz voltage compatibility, making it suitable for use in a wide range of industrial and commercial settings.
- > Powered by a permanent magnet motor, offering reliable, efficient performance with reduced energy consumption.
- > Built with high-strength PP construction, ensuring durability and resistance to impact, ideal for tough environments.
- > Heavy weight ensures stability during operation while still allowing for portability with castors for easy movement.

JL750

Manual Floor Sweeper with Adjustable Handle

- › Designed for efficient cleaning of large floor areas, the manual floor sweeper is perfect for industrial, commercial, and outdoor environments, such as streets, communities, parks, squares, factories, and construction sites
- › The hand-pushed unpowered double-brush sweeper utilizes a unique spiral reversing transmission technology, providing superior performance for bulk garbage collection
- › Features two front brushes rotating in opposite directions, working in sync with a parallel shovel close to the ground to easily collect debris and garbage into the trash can

SKU	JL920
Working Surface Area	750mm
Maximum Work Efficiency	2350m ² /h
Trash Bin Volume	50L
Overall Machine Weight	11.2kg
Overall Dimensions	1000(L)x750(W)x830(H)mm
Net Weight	14.8kg

MATEX

JL920

Manual Floor Sweeper with Foldable Handle and Roller Brush

- › Designed for efficient, quiet cleaning in warehouses, factories, parks, streets and more
- › 920mm wide sweeping path with roller and dual side brushes for high coverage and speed
- › Corner pressure device allows easy debris collection in tight corners and edges
- › Large-capacity bin with dust-control skylight reduces emptying frequency and minimises airborne dust
- › Spiral reversing transmission boosts sweeping power for bulk waste and fine dust
- › Lightweight, ergonomic design with durable wheels and low-maintenance components

SKU	JL920
Working Surface Area	920mm
Maximum Work Efficiency	3680m ² /h
Trash Bin Volume	40L
Overall Machine Weight	23kg
Overall Dimensions	1250(L)x920(W)x1050(H)mm
Net Weight	27kg

ORBIT1000

Stretch Wrap Machine

- › Designed for economy, efficiency and safe operation
- › These stretch wrapping machines will give you all of the features you need to wrap pallet loads quickly and efficiently
- › Dramatically increase efficiency and profitability through lower film cost per load compared to manual (hand) stretch wrapping
- › Easy film threading and quick loading process, minimizing setup time and improving operational efficiency
- › Electronic screen with 'Soft Touch' control for intuitive and user-friendly operation
- › Forklift relocation slots for easy movement of the machine within the warehouse

SKU	Capacity	Wrap Height	Max Pallet Size	Stretch Film Size	Low Profile Turntable	Speed	Power Voltage	Unit Weight
ORBIT1000	2000kg	2200mm	1200 x 1200mm	500mm	80 - 1520mm	10RPM	240V Single Phase	450kg

OR-2000

Powered Pre-Stretch Wrap Machine

- › Designed for economy, efficiency and safe operation
- › This stretch wrapping machine will give you all of the features you need to wrap pallet loads quickly and efficiently
- › Dramatically increase efficiency and profitability through lower film cost per load compared to manual (hand) stretch wrapping
- › Easy film threading and quick loading process, minimizing setup time and improving operational efficiency
- › Electronic screen with 'Soft Touch' control for intuitive and user-friendly operation
- › Forklift relocation slots for easy movement of the machine within the warehouse

OR-100MW

Mobile Stretch Wrapping Machine

- › Mobile mechanical friction brake pallet wrapper, and is simple and easy to use
- › This machine can dramatically increase efficiency and profitability through lower film cost per load compared to manual (hand) stretch wrapping
- › The first machine for wrapping palletized loads of any shape and weight with wrap film without the use of electrical parts
- › Easy to manoeuvre and move around inside the warehouse
- › Capable of wrapping palletized loads of any shape and weight using wrap film, making it versatile and reliable
- › Features a mechanical brake film carriage for precise film tensioning, providing secure and consistent wraps

SKU	Max. Wrap Height	Min. Pallet Size	Standard Pallet Size	Reel Size	Reel Weight
OR-100MW	2000mm	650 x 400mm	2000mm	75 - 250mm	2.5 - 16kg

OR-700M

Semi-Auto Mobile Stretch Wrapping Machine

- › Designed for economy, efficiency and safe operation
- › These stretch wrapping machines will give you all of the features you need to wrap pallet loads quickly and efficiently
- › Dramatically increase efficiency and profitability through lower film cost per load compared to manual (hand) stretch wrapping
- › Easy film threading and quick loading process, minimizing setup time and improving operational efficiency
- › Electronic screen with 'Soft Touch' control for intuitive and user-friendly operation
- › Forklift relocation slots for easy movement of the machine within the warehouse

SKU	Programs	Pallet Size	Power Supply	Net Weight
OR-700MW	6 + 1	Min > 600mm x 600mm > Unlimited	230V Single Phase	325kg

TMS-300

Semi-Auto Closed Frame Strapping Machine

- › Designed for general purpose and can meet your various applications
- › Compact and lightweight, making it easy to transport and install in small spaces
- › Powered by a single motor, ensuring stable operation even during voltage fluctuations
- › Easy adjustment allows the use of any strap up to 15.5mm wide by loosening just four screws
- › Designed to eliminate strap damage, with a feed system that prevents splitting, bending, or scratching
- › Suitable for bundling irregularly shaped objects like pipes, thanks to its small slide table width

SKU	Dimensions	Max Tension	Strap Width	Strapping Speed	Power Supply	Net Weight
TMS-300	910 x 582 x 785mm	45kg	6mm / 9mm / 12mm / 15.5mm	2.5 Sec/Strap	AC230V(50Hz) Single Phase	100kg

TRS-600

Automatic Strapping Machine

- › Economical cost effective automatic strapping machine for 12mm PP strap
- › With proven quality and competitive price, it is the most cost effective solution for wide strap in general purpose applications
- › Featuring a rugged steel construction which is designed for round-the-clock operation, is extremely durable and reliable
- › Proven quality and competitive pricing make it the most cost-effective solution for general-purpose applications with wide strap
- › Built with rugged steel construction, designed for round-the-clock operation, ensuring durability and reliability
- › Suitable for a wide range of industries, logistics, distribution, and manufacturing

SKU	Arch Size	Strap Tension	Strap Thickness	Strap Width	Strapping Speed	Power Supply	Net Weight

CRANE

"Lift with Confidence"

Electric Chain Hoist Single Phase with Emergency Stop Switch

- › Load limiter
- › Emergency stop switch
- › Thermal overload prevention
- › Light weight, compact design with high efficiency motor
- › Pressed steel structure, high strength body
- › High tensile alloy steel top & bottom hooks
- › Grade 80 – 7.1mm Alloy Steel load chain
- › Limit switches fitted at top and bottom ends to prevent chain run-out
- › 220V, 50Hz Single speed Motor 1200 Watts. (Single Phase)
- › Complies with AS/NZS 1418.2 standard
- › The electric chain hoist offers a long and reliable operation
- › Compact structure, light weight, easily operation and attractive appearance
- › Widely used in factories, mines, ports, shopping centres and warehouses

New Configuration:

- › Load Limiter is installed to prohibit the chain from overload

Chain Protection Box:

- › Protects the chain so it can be safely used in poor environments

Hook & Safety Latch:

- › Perfect strength hook that is hard to break

Control Switch:

- › Light and durable switch with emergency stop button

! WARNING: As a general rule, use the product indoors. When installing the electric chain hoist outdoor or place where the hoist is exposed to direct rain, wind and snow, shade the hoist with roof to protect it from rain, wind and snow.

ER - Single & Dual Speed Powered Hoist

- › The Power Hoist offers a robust load capacity, designed for efficient lifting operations.
- › With a precise speed control, it adapts to various lifting tasks.
- › The hoist features an IP55 dust and water jet proof body, ensuring reliable performance even in challenging environments.
- › Engineered for durability, this hoist is suitable for a wide range of applications in mining, warehouses, construction, entertainment, engineering, and manufacturing industries.
- › The compact design enhances maneuverability, making it easy to use in tight spaces.

EQ - Dual Speed Powered Hoist with Inverter

- › The EQ Dual Speed Powered Hoist with Inverter is designed for efficient lifting, making it ideal for various applications in industries like construction, manufacturing, and warehousing
- › Featuring an adjustable speed inverter, this hoist allows for smooth and precise lifting and lowering, enhancing versatility for different tasks
- › Equipped with a push button pendant control and an emergency stop feature, it ensures safe and convenient operation from a distance
- › A counter hour meter provides operational tracking, ensuring efficient maintenance and management
- › The hoist is designed with an IP55 dust and water jet proof body, making it suitable for challenging environments while maintaining reliable performance
- › With a 40/20% duty rating and a no load, high-speed feature, it is built for continuous use and efficiency
- › The standard lift height options of 3m and 6m provide flexibility for various lifting applications.
- › Suitable for mining, warehouse, construction, entertainment, engineering, and manufacturing industries, this hoist offers a robust solution for all lifting needs
- › This unit is a 3-phase configuration, with single-phase units available upon request

FLAT SLING

Robust and made at the highest quality.
Ideal for all heavy lifting.

- Fully Certified
- Robust Tags
- Super Bright Dense Fabric
- Reinforced Eyes

CRANE Synthetic Slings offer total flexibility in lifting loads combining the light weight and great strength of 100% polyester.

Crane Round and Flat Slings are robust and come with a non-tearable safety tag.

Our fabrics are dense and brilliantly coloured for longevity and easy identification.

- Custom flat slings made to order.

HAZLIGHT

Traffic Barricade Light

- › Ideal for road Construction sites for indicating road closures or for warning motorists of approaching hazards
- › Batteries are not included

SKU	Description
HAZLIGHT	130mm x 100mm

RB540

Traffic Wand

- › Flashing or constant light modes
- › LED technology
- › Batteries are not included

SKU	Description
RB540	Flash - Steady - Top Light Function

BATS-S

Stop Slow Traffic Sign

- › Ideal for traffic management

SKU	Description
BATS/S	450mm Class 1 Reflective with Wooden Handle

FLAGDOWEL

Traffic Flag Dowel

- › High-quality PVC material
- › U.V. Stabilised to minimise fading

SKU	Description
FLAGDOWEL	PVC Traffic Flag Dowel

Barrier Mesh

- › Safety PVC UV resistant barrier mesh
- › 50m per roll

SKU	Description
MESH6	6kg PVC Safety Barrier Mesh
MESH8	8kg PVC Safety Barrier Mesh

Bunting Safety Flags

- › Various colours available.
- › 20 flags per box
- › 30m length

SKU	Description
BUNTOR	Orange Bunting Safety Flag - 20 x 30m
BUNTLL	Lime Bunting Safety Flag - 20 x 30m
BUNTY	Yellow Bunting Safety Flag - 20 x 30m
BUNTR-W	Red/White Bunting Safety Flag - 20 x 30m

"safety is our business"

Plastic Safety Chain

- > 100% recyclable plastic
- > Ideal to use as safety barrier to cordon off workplace & public areas
- > 40 meter rolls are available on request

SKU	Link Thickness	Colour	Roll Length

RACKGC

Racking Leg Guard

- > Complies with AS4084-2012
- > Designed for corner applications
- > Powder-coated high visibility safety yellow
- > Mounted independently to avoid impact transference

SKU	Description	Construction
RACKGC	180 x 180 x 500mm High	6mm Thick Mild Steel

"safety is our business"

RACKG

Pallet Racking Leg Guard

- > Pallet racking legs are often supporting many tonnes of product
- > Protecting these legs is of vital importance to avoid potential disasters caused as a result of impact by forklifts or trolleys
- > Four bolt fixing for maximum security
- > Powder-coated high visibility safety yellow
- > Protects your investment and reduces the risk of collapse
- > Mounted independently of racking to avoid impact transference

SKU	Description	Installation
RACKG	150mm x 400mm High	4 x 12mm Masonry Anchors

TAPER-W

Safety Tape

- › Ideal for marking hazards, boundaries, or restricted areas to ensure safety compliance.
- › Easy to apply and remove, suits to both temporary and permanent use
- › Weather-resistant properties ensure effectiveness in diverse conditions

SKU	Pattern	Tape Width	Tape Length	Per Box

MONSTAR STEP

www.monstarladders.com.au

Outperforms other similar safety steps in longevity and strength.

The Monstar Step is the only plastic safety step that has superior design features over existing injection moulded safety steps available in Australia.

The Monstar Step is a quality, cost effective solution designed for intermittent use. Designed to be durable, safe and robust.

Monstar Step has a larger, safer area of non slip tape including an indentation on the lower step so the tape will not wear away - ensuring longevity of non slip surface.

The Monstar Steps come with the following features, benefits and specifications.

- › 370mm x 370mm large non-slip platform
- › Supports up to 260kg with durable polypropylene frame
- › Four-way access and rubber feet for stability
- › Lightweight 3.5kg design for easy handling and transport
- › Ideal for warehouses, workshops, and general-purpose use
- › Fully fitted with non-slip tape for added safety
- › Resistant to rust, dents, and corrosion for long-lasting use
- › Stackable design for efficient storage organisation

- 260kg Rated Capacity
- Large Deck 370 x 370mm
- Lightweight with 3.5kg

Built-in Rubber Feet

Four Way Non-Slip Access

FWP25

Forklift Work Platform - 250kg

- › Reinforced single-panel sides for strength and quick assembly
- › Self-closing gate with bow latch for safe, secure access
- › Two floor-mounted anchor points for harness safety compliance
- › Removable tool tray keeps gear within reach and prevents drops
- › Fork locking pins ensure secure attachment to forklift
- › Zinc-plated finish protects against rust and wear in tough conditions
- › Heavy-duty steel construction built for industrial use
- › Compact design for easy storage and handling
- › Complies with AS 2359.1 Australian Safety Standards

The use of FWP25 on a forklift truck should not be considered if the capacity of that forklift is less than 1800kg for a counterbalanced type or 1080kg for a straddle type forklift.

FWP25	1155 x 1225 x 2000mm	160 x 60mm	640mm	600mm

WP-GC

Forklift Work Platform - 250kg

- › Heavy-duty welded construction for industrial environments, built to withstand tough use
- › Self-closing gate with bow latch and two harness anchor points ensure worker safety
- › Fork locking pins secure the cage during forklift transport, preventing accidental detachment
- › Galvanised finish resists corrosion, suitable for both indoor and outdoor applications
- › Compact and low-maintenance design, easy to store and durable for long-term use
- › Complies with AS 2359.1, meeting Australian safety standards for forklift work platforms

The use of WP-GC on a forklift truck should not be considered if the capacity of that forklift is less than 1925kg for a counterbalanced type or 1155kg for a reach type forklift.

Designed for efficient parts handling, facilitating easy transport of storage bins.

- › Features louvre panels that securely hold various storage bins for organized access
- › Comes with castors for easy mobility, allowing smooth movement around the workspace
- › Double-sided unit provides convenient access to parts from both sides, enhancing efficiency
- › Lightweight construction makes it easy to push and reposition as needed
- › Ideal for use in manufacturing, workshops, assembly lines, and garages
- › Spacious design accommodates multiple bins, improving parts accessibility
- › Easy to assemble with minimal tools required for setup.
- › Enhances productivity by keeping tools and parts organized and within reach
- › Provides a clean and professional appearance to improve workspace aesthetics
- › **Popular combination uses 116 bins spread across five sizes: 16 Grey, 32 Yellow, 32 Green, 12 Blue and 24 Red.**

- Robust Frame
- Reliable Performance
- Long-lasting Durability

MONSTAR *BIN*

The Monstar Collapsible Bin is a perfect solution when floor and storage space is limited, making it ideal for efficient storage and transportation.

- 750 Litre Capacity
- Food Grade
- Foldable and Stackable

- › This bin provides an outstanding option for agricultural and horticultural picking industries, designed to meet the demands of these sectors
- › Australian Standard Pallet Size
- › Featuring a 3:1 fold-down ratio, it significantly increases transport efficiency, allowing for easy storage when not in use
- › Constructed from durable materials, it ensures robust performance while remaining lightweight for easy handling and transport
- › Its solid construction guarantees stability and durability, making it suitable for heavy-duty applications
- › The bin is compatible with standard pallets, facilitating seamless integration into existing logistics systems
- › Smooth, non-porous surfaces promote hygiene and make it easy to clean and maintain
- › The design supports efficient material handling, enhancing productivity in operations

MONSTAR BIN

The Monstar Pallet Sleeve Bin is designed for efficient storage and transportation of goods, making it a perfect solution when floor and storage space is limited.

- 350kg Capacity Rated
- Foldable Sleeve
- Reusable Container

- › This bin is an outstanding solution for the logistics and transport industries, serving as an ideal low-cost alternative to injection-molded bulk containers.
- › Can be used for closed-loop material handling or as recyclable and reusable bulk packaging.
- › When combined with a lid and pallet, these containers are lightweight, strong, space-saving, and reusable, enhancing their practicality.
- › Durable construction allows for flexible customisation, suitable for many industries that require cost-saving recyclable packaging.
- › The bin is compatible with the Australia Standard Pallet Size, facilitating seamless integration into existing logistics systems.
- › Its open-top design provides quick access to contents, improving efficiency in operations.
- › Lightweight construction enables easy handling and transport, reducing labour costs.

Please Note: MONBIN containers are NOT suited to RACKING USE.

The MDF Work Bench is a reliable solution for workshops, warehouses, and garages, providing a strong and stable platform for everyday tasks.

- Galvanised Steel Frame
- 18mm MDF Top
- Multiple Sizes Available

- › The MegaBench Steel Workbench is built to withstand years of demanding use in factories, workshops, and warehouses
- › Constructed with a reinforced steel frame for maximum stability and load capacity, ideal for assembly, repairs, packing, or heavy-duty industrial applications
- › Heavy-duty steel frame provides outstanding strength and long-term durability
- › Available in multiple lengths, two widths, and three height options to suit any workspace
- › Features a smooth 18mm MDF top, ideal for assembly, repairs, packaging, and general tasks
- › Standard stock models can be customised with drawers, shelves, or castors for mobility
- › Galvanised steel offers resistance to rust, scratches, and everyday wear
- › Simple bolt-together design ensures quick assembly, relocation, and maintenance
- › Provides a dependable and practical work surface that enhances efficiency in any environment
- › **Non-standard sizes and custom finishes available on request**
